Smart Integration with
Google Assistant &
Amazon Alexa²

More convenience with dry contacts

The T35WD uses dry contacts to become more versatile in use while creating controls for simple devices. It proves especially useful when you just arrive home and is far away from a physical switch.

 Control your garage door

 Control your lights

Switch on and off, remotely and smartly

Convenience and confidence come together when you use your smartphone to open your garage gate or turn on a backyard light, thanks to the T35WD. This Wi-Fi relay provides straightforward on/off controls, so you can manage the use of your home devices confidently without waiting.

Unlock wider smartness with Matter

The T35WD is ready to assist you in building your dream smart home with much more possibilities. You will be able to connect this Wi-Fi relay with other Matter-compatible products, so as to enjoy a unified, secure, and reliable smart experience.

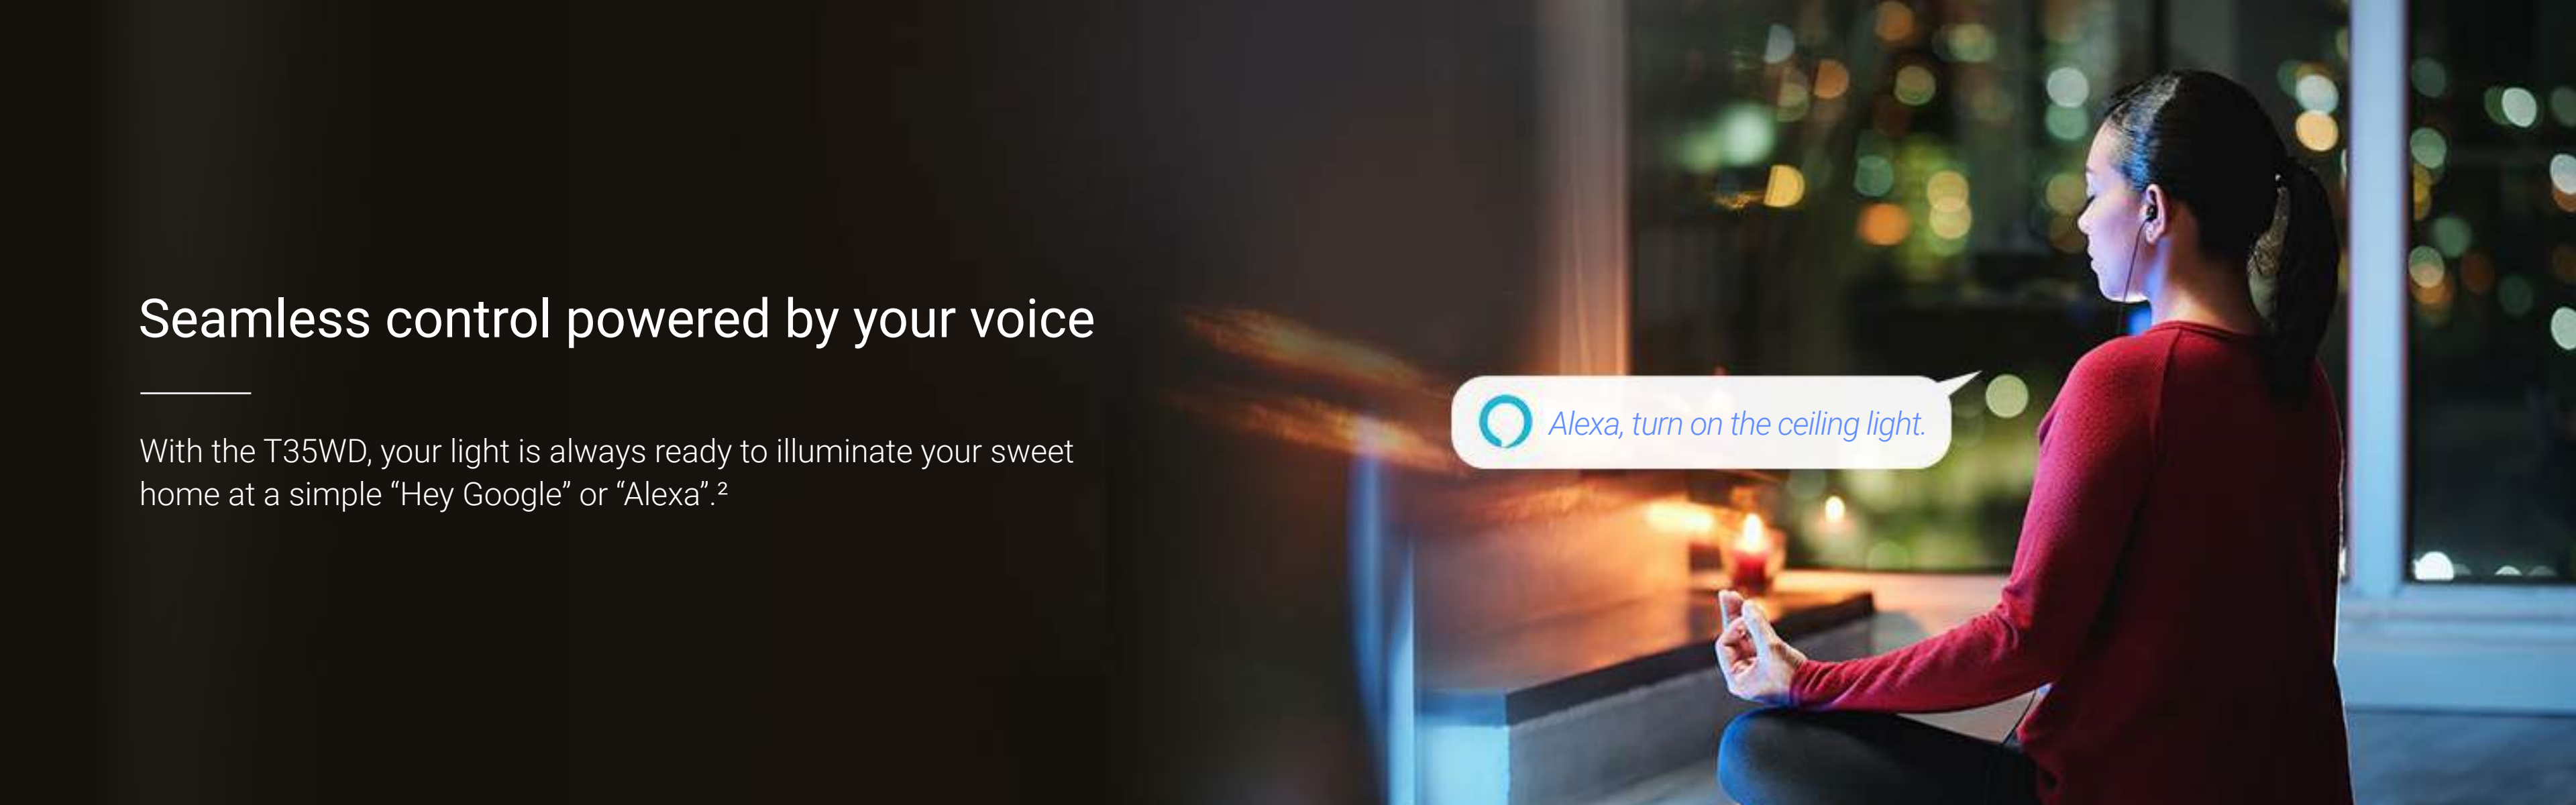

Create lighting routine to make your day

Imagine returning home to a delightful, well-lit atmosphere or shutting off lights effortlessly to save energy during specific periods. With customized time slots at your disposal, achieving these scenarios becomes a breeze.

Seamless control powered by your voice

With the T35WD, your light is always ready to illuminate your sweet home at a simple “Hey Google” or “Alexa”.²

A woman with dark hair in a ponytail, wearing a red long-sleeved shirt and blue pants, is sitting in a meditative pose on a balcony at night. She is looking out over a city skyline with blurred lights. A speech bubble with the Alexa logo and the text "Alexa, turn on the ceiling light." is positioned near her. The background is dark with warm, out-of-focus lights from the city and a small lit candle on the balcony railing.

 *Alexa, turn on the ceiling light.*

1 The T35WD supports the Matter connectivity standard and the related compatibility with products of other brands is subject to actual conditions.

2 The referred voice assistant features are enabled via Amazon Alexa or Google Assistant devices. Please note that Amazon Alexa and Google Assistant may not be available in certain languages and countries.

Physical

Sensor Type	Wi-Fi Relay
Radio Frequency	2.4 GHz
Size	38.4 × 43.8 × 18.5 mm
Net Weight	26.5g
With Package	95.8g
Mounting	Wall console
Conductor Cross Section	22 to 14 AWG
Wall Console	Plastic
Color	White
Dry Contacts	Supports
Relay	16A

Electrical

Power Supply	100-240 VAC, 50 –60 Hz / 12VDC
Power Consumption	≤1.5W
Max. Switching Voltage	250V AC or 30V DC
Channels	1 Channel

Connectivity

Communication	Wi-Fi 6, BLE
Radio Frequency	2.4 GHz
Wi-Fi Standard	IEEE802.11b, 802.11g, 802.11n
Wi-Fi Distance	≤ 200m in open environment

Environmental

Operating Conditions	-10°C to 45°C (14°F to 113 °F), Humidity 95% or less (non-condensing)
Storage Temperature	-10°C to 45°C (14°F to 113°F)
Max. Altitude	2000m / 6562ft

Special Function

Device Temperature Protection	Yes
Overload Protection	Yes
Google Assistant & Alexa	Supports
Matter	Supports
